Summary

FrontEnd Developer and open source contributor. A self-learner, always eager to explore new technologies, and continuously improve my skills. CSS enthusiast and responsible for developing the Reversim 2025 website.

Experience

SOFTWARE DEVELOPER

Common Ninja

Mar 2023 - Oct 2025

Worked as part of a small team, focusing on building customizable widgets and platform integrations for our main product, while also developing internal tools to improve support workflows.

- Created a range of widgets in React, from UI-focused elements to full-fledged features such as an AI-Chatbot, Diagram Creator, and Website Translator.
- Developed internal tools, such as a Chrome extension and a support dashboard that made it easier for the support team to access information quickly, reducing ticket resolution time from hours to minutes.
- Developed integrations with external services like Mailchimp, Canvas, Zapier, and Zendesk, allowing clients to easily connect widgets to these platforms using their API key and OAuth.
- Developed an MCP server integrated with MongoDB, enabling users to create and manage customer contexts for AI chatbots.
- Technologies in use: React, TypeScript, Next.js, Node.js, MongoDB, AWS.

OPEN SOURCE MAINTAINER AND CONTRIBUTOR

Pull-Request-Community

Dec 2021 - Jan 2024

Maintainer and contributor to Pull-Request community's open source projects.

- Collaborate with the other maintainers and designers.
- Technologies in use: next.js, react.js, styled-component, TypeScript, SCSS.

IT SUPPORT TECHNICIAN

Israel Defense Forces

Aug 2020 - Aug 2021

Served in the army in a technical unit under the intelligence force (8200) as an IT/system administrator, maintained existing networks, built new networks, and overall provided networking support for intelligence force bases around Israel.

Personal Projects

3D Book

CSS-Only Animated 3D Book

URL: <https://codepen.io/pen/yLEXPxW>

Reversim Summit 2025

Volunteering as the website builder and manager of Reversim 2025

Tech: Astro, Scss, firebase

URL: <https://summit2025.reversim.com>

Education

Scrimba

- Completed React, JavaScript, and CSS courses.
- Completed all the solo projects of each subject, and uploaded all of them to my GitHub.
